

TEQIP-III Sponsored

Induction Program

organized by

GB Pant Institute of Engineering & Technology
Pauri-Garhwal, Uttarakhand, 246194

August 14-31, 2018

About Pauri

Pauri - Garhwal is a district in Uttarakhand state of India. Its headquarter is at Pauri. The region lies majorly in Northern Himalayas by its innate charm and magnificence. Apart from the wonderful scenic beauty it is also studded with numerous temples which serve the purposes of tourism and religious pilgrimage.

The main occupation of the population is agriculture. Some large and small industrial units have been established. Besides this, joining army/paramilitary forces and teaching are the major sources of employment for the youth.

The district encompasses an area of 5230 square km and is situated at an altitude of 1650 meter, between 29°45' to 30°15' Latitude and 78°24' to 79° 23' E Longitude. The climate of Pauri Garhwal is cold in winter and pleasant in summer. In rainy season the climate is cool & full of greenery. The winter season decorates the district with beautiful snow covered valleys and mountains.

Tourism in Pauri Garhwal district comprises of a number of exploring options. The district is regarded as nature's paradise.

About Institution

G.B. Pant Institute of Engineering & Technology is an autonomous institute for higher technical education run by the state government of Uttarakhand, India. It is established in 1989 by the government of Uttar Pradesh in honor of Indian freedom fighter Bharat Ratna Govind Ballabh Pant. The institution aims at harbouring and nurturing the technical education in Uttarakhand. The vision of the institution is to serve as a pivot of excellence in providing technical education and develop leadership qualities among students. The college aims at

empowering students so that they may be able to shoulder the responsibility and carry forward the work of previous generation of technical intelligence of our beloved nation. The college provides a panoramic view of the beautiful surroundings of Himalayas. The campus is a sprawling over 169 acres of land. The institute is situated in Ghurdauri, about 11 Km from Pauri city on Pauri-Devprayag road in district of Pauri Garhwal. The climate at Pauri and college campus is pleasant for most of the year, except from mid-December to February when it becomes very cold and chilly. The nearest Airport is Jolly Grant, Dehradun. Strategic location of the campus amidst the salubrious environment and the symbiotic connections with the nature together makes it an ideal place for seriously inclined learner.

About Induction Program

Engineering colleges were established to train graduates well in the branch/department of admission, have a holistic outlook, and have a desire to work for national needs and beyond.

The graduating student must have knowledge and skills in the area of his study. However, he must also have broad understanding of society and relationships. Character needs to be nurtured as an essential quality by which he would understand and fulfill his responsibility as an engineer, a citizen and a human being. Besides the above, several meta-skills and underlying values are needed.

There is a mad rush for engineering today, without the student determining for himself his interests and his goals. This is a major factor in the current state of demotivation towards studies that exists among UG students.

The success of gaining admission into a desired institution but failure in getting the desired branch, with peer pressure generating its own problems, leads to a peer environment

that is demotivating and corrosive. Start of hostel life without close parental supervision at the same time, further worsens it with also a poor daily routine.

To come out of this situation, a multi-pronged approach is needed. One will have to work closely with the newly joined students in making them feel comfortable, allow them to explore their academic interests and activities, reduce competition and make them work for excellence, promote bonding within them, build relations between teachers and students, give a broader view of life, and build character.
